

TNE Connects

TNE Connects is TAFE New England's flexible learning platform, and provides you with a range of courses that you can study where and when it suits you. TAFE New England students have every opportunity to gain a nationally-recognised vocational qualification through blended delivery that includes a variety of modes such as:

- Video Conferencing
- Online resources
- Workshops on campus
- Mobile delivery units.

Unlike traditional distance education, TNE Connects allows you the opportunity to participate in a virtual classroom, take part in class discussions and ask your teacher 'on the spot' questions. You can choose the blended learning option that suits your particular circumstances and receive the support you need to complete your course.

TNE Connects courses allow you to become part of a connected learning community, and access 'real time' delivery from your teacher.

TAFE New England uses online technology to deliver training to students who choose to complete their course using blended learning delivery options. Online learning has many advantages, particularly for students who can't access their local TAFE New England campus or who live in a remote area.

Some TNE Connects courses are offered completely online, which provide students with the freedom to study at their own pace, when and where they like, with easy access to teacher support. Some of the online platforms used by TNE Connects teachers include Moodle, Adobe Connect, DeskNow and WordPress blogs.

Locations & Opening Hours

TAFE New England is now offering more ways of studying than ever before! Contact our Customer Support Centre on 1800 448 176 to find out about TNE Connects courses online or at a campus near you.
